PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Built and maintained **BI dashboards** and reporting tools to track sales, margin, and pricing KPIs for the coffee category, enabling proactive commercial action.
- Extracted, cleaned, and structured **data from multiple sources** including sales systems and supplier databases to ensure accuracy and consistency for reporting.
- Supported the development and maintenance of **pricing models**, performing margin analysis and tracking cost movements against supplier agreements.
- Managed day-to-day buying activities for allocated coffee products, including raising and tracking **purchase orders** and validating supplier pricing.
- Collaborated with **Operations, Finance, and Brand teams** to align data and commercial plans, supporting product launches and menu changes with data insights.
- Performed **data integrity and governance** checks to ensure a single version of the truth across commercial reporting outputs.
- Containerised reporting services using **Docker** and deployed to **AWS EC2** instances, ensuring scalable and reliable delivery of BI solutions.

SKILLS

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, BI Dashboards, Reporting Tools

Data Management – Data Extraction, Data Cleaning, Data Structuring, Data Integrity, Data Governance

Commercial Analysis – Sales Analysis, Margin Analysis, Pricing Analysis, KPI Tracking, Performance Analysis, Forecasting, Budgeting

Purchasing & Procurement – Buying, Purchase Orders, Supplier Management, Supplier Pricing, Cost Tracking, NPD Pipeline Management

Programming & Scripting – Python, SQL, R

Cloud & DevOps – AWS, EC2, Docker, Jenkins, Git

Spreadsheets – Microsoft Excel (Complex Formulas, Pivot Tables, Data Modelling, Scenario Modelling)

PROJECTS

Commercial Performance Dashboard (HCL Technologies)

- Developed an interactive **Power BI dashboard** to visualise key performance indicators for a financial services operations platform, enabling operations teams to monitor transaction flows.
- Extracted and transformed data from **PostgreSQL** and **Oracle** databases, performing complex ETL using **Python scripts** to prepare datasets for analysis and reporting.
- Designed **DAX measures** and data models within Power BI to provide insights into operational efficiency and identify potential bottlenecks in payment processing workflows.

Automated Reporting System (HCL Technologies)

- Engineered automated **Python scripts** to extract and aggregate data from multiple enterprise systems, reducing manual reporting effort by approximately 15 hours per week.
- Implemented scheduled jobs using **Linux cron** and **Jenkins** to run ETL processes and generate daily and weekly summary reports for business stakeholders.
- Provided production support for the automation scripts, ensuring reliable data flow and timely delivery of reports for internal business systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
