HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts for automating data ingestion and ETL processes, reducing manual data handling time by approximately **40%** for routine reporting tasks.
- Developed and maintained **Java Spring Boot** REST APIs for internal microservices, ensuring seamless data exchange and integration across disparate enterprise systems.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, contributing to **P1/P2** issue resolution within defined SLA targets.
- Collaborated with cross-functional teams to automate design and engineering workflows using **Python**, improving efficiency in output generation by an estimated **15%**.
- Contributed to the development of **software products** and platforms supporting new ways of working for clients, focusing on application reliability and user experience.
- Applied **software testing methodologies** including unit and integration testing to ensure the quality and robustness of developed applications.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, improving deployment consistency and reducing environment setup time.

SKILLS

Languages – Python, Java, SQL, JavaScript, TypeScript

Frameworks/Libraries – Spring Boot, NodeJs, Express.JS, React

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure

Databases – PostgreSQL, MySQL, Oracle, SQL

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R/RStudio

Methodologies – Agile, Scrum, DevOps, CI/CD, Software Engineering, Data Structures & Algorithms, Object-Oriented Programming

PROJECTS

Python-based Design Automation Tool

- Developed a **Python** application to automate repetitive design tasks, integrating with existing business models to generate standardized outputs, reducing manual effort by **30%**.
- Implemented a modular architecture allowing for easy extension and adaptation to new design parameters, supporting a team of **5 engineers**.
- Designed a user-friendly interface for engineers to input project specifications and receive automated design reports, improving user adoption rates.

Digital Services Platform Enhancement

- Built new features for a **software product** platform using **Java** and **Spring Boot**, enhancing its capability to support complex built environment projects.
- Developed RESTful APIs for data integration, enabling seamless communication between the platform and other internal systems, processing an average of **500 requests** per hour.
- Wrote comprehensive unit tests using **JUnit** to ensure code quality and maintainability, achieving over **85%** code coverage for new modules.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
