HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripts for data extraction and transformation, automating monthly reporting processes and reducing manual effort by approximately **40%**.
- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, handling approximately **500 requests per minute** during peak operational hours.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, performing root cause analysis and coordinating fixes to meet strict SLAs.
- Coordinated change management activities for enterprise business systems, including UAT support and post-go-live issue resolution across interconnected platforms.
- Authored technical reports and geoenvironmental assessments, detailing site investigation findings and conceptual site models for major infrastructure projects.
- Contributed to the planning and interpretation of ground investigations, including logging soil samples and coordinating field data collection for geoenvironmental studies.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, streamlining the deployment pipeline and improving environment consistency.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum, CI/CD

Domain Knowledge – Geoenvironmental Science, Hydrogeology, Geotechnical Engineering, Data Analytics

PROJECTS

Geoenvironmental Site Assessment Framework

- Developed a standardized **Python** framework to process and analyze geochemical data from soil and water samples, identifying potential contamination hotspots across multiple project sites.
- Integrated geological logging data with sample analysis results to build comprehensive conceptual site models, improving the clarity of environmental risk assessments for stakeholders.
- Authored technical documentation and generated visualisations using **pandas** and Matplotlib to present findings from site investigations, supporting regulatory submissions.

Automated Reporting for Enterprise Systems

- Engineered **Python** scripts to extract, transform, and load data from various enterprise systems, automating the generation of monthly operational performance reports.
- Designed and implemented data validation checks to ensure accuracy and completeness of the generated reports, reducing data discrepancies by **~30%**.
- Scheduled and monitored automated report generation using **cron jobs** and shell scripting, ensuring timely delivery to business analysts and operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
