HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported production operations for critical enterprise applications, focusing on incident response and SLA management for **P1/P2 incidents** using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data extraction and transformation tasks, improving the efficiency of scheduled reporting processes by **30%**.
- Managed database changes and performed ad-hoc querying across **PostgreSQL** and **MySQL** for data validation and reporting requirements.
- Contributed to the development of new features and bug fixes for existing **Java Spring Boot** REST APIs, enhancing system functionality.
- Containerized multiple microservices using **Docker**, enabling consistent deployment across development and production environments.
- Managed change control processes for system configurations and coordinated User Acceptance Testing (UAT) for enterprise business systems.
- Assisted in the development of process and systems to ensure the delivery of effective quality within a business unit.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

PROJECTS

Enterprise Systems Integration

- Designed and implemented REST APIs using **Java Spring Boot** to facilitate cross-system data flows between ERP modules and operational platforms for an enterprise client.
- Developed Python scripts to automate data reconciliation tasks between disparate systems, reducing manual effort by approximately **40%** and improving data accuracy.
- Supported change management activities, including UAT coordination and post-go-live issue resolution for integrated business systems.

Production Support Dashboard Enhancement

- Developed a Python-based ETL process to ingest and transform operational data from various sources into a centralized data store for a client's payments operations dashboard.
- Created automated alerts and reporting mechanisms using **Python** and **SQL** to monitor transaction flows and highlight potential issues in near real-time.
- Collaborated with business analysts to gather requirements for enhancing the dashboard's visibility into reconciliation workflows and operational alerting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
