HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, handling approximately **1,500 requests per minute** during peak hours.
- Implemented data persistence using **Hibernate** and **JPA**, managing complex object-relational mappings for enterprise application data models.
- Designed and implemented object-oriented solutions in **Java**, incorporating **JUnit** and **Mockito** for comprehensive unit and integration testing across core modules.
- Contributed to the design and implementation of a new **Rust**-based backend service for event processing, focusing on performance and concurrency.
- Engineered **Python** scripts to automate data extraction and transformation tasks from various enterprise systems, reducing manual processing time by **40%**.
- Containerized backend services using **Docker** and deployed them to an **AWS EKS** cluster, managing configuration and resource allocation.
- Participated in code reviews and technical estimation sessions within an **Agile** development team, ensuring adherence to coding standards and project timelines.

SKILLS

Languages – Java, Python, SQL, Rust, Bash

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, FastAPI, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch, EKS), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Linux

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, R, RStudio

Concepts – REST APIs, Microservices, CI/CD, Agile Methodologies, Object-Oriented Programming

PROJECTS

Enterprise Java Backend Service with PostgreSQL

- Developed a **Java Spring Boot** microservice to manage customer account data, integrating with a **PostgreSQL** database via **Hibernate**.
- Implemented robust **RESTful APIs** for CRUD operations, ensuring data integrity and adherence to strict validation rules for approximately **1,200 transactions daily**.
- Containerized the application using **Docker** and configured basic CI/CD pipelines in **Jenkins** for automated builds and deployments.

Python Data Pipeline for Transaction Processing

- Engineered a **Python** data pipeline using **pandas** to process and aggregate transaction logs from multiple sources, identifying patterns in failed entries.
- Automated the generation of daily operational reports using **SQL** queries and **Python** scripting, delivering insights on transaction flow anomalies.
- Collaborated with the operations team to define data requirements, ensuring the pipeline accurately reflected key performance indicators for financial transactions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
