PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and documented detailed requirements from pharmacy stakeholders for the **Meditech Expanse EHR implementation**, translating clinical workflows into system configuration specifications.
- Developed and validated site-specific and corporate content for the **pharmacy module**, including routes of administration, common doses, and associated lab values, adhering to defined guidelines.
- Assisted in the development of system functionality and access recommendations for the pharmacy working group, ensuring efficient movement of information within the EHR system.
- Configured and tested the **Meditech Expanse EHR** system configurations for the pharmacy module, participating in functional integrated and parallel testing cycles.
- Assisted in the development of training materials for super-user and end-user training sessions, and provided direct end-user training on the new EHR system.
- Collaborated with the Stream Leadership Team and READY Consultants to define and implement optimized system processes and workflows for the pharmacy module.
- Managed system testing activities, including high-level validation and functional integrated testing, for the **EHR implementation** project.

SKILLS

EHR Systems – Meditech Expanse, Electronic Health Records

Healthcare Informatics – IT Project Experience, Health Informatics

Pharmacy Domain – Hospital Pharmacy Drug Formularies, Routes of Administration, Common Doses

Business Analysis – Requirements Gathering, System Optimisation, Workflow Development, User Training, UAT Support

Project Management – Multi-tasking, Attention to Detail, Problem-Solving, Initiative, Team Collaboration

PROJECTS

Pharmacy Module Configuration for EHR Rollout

- Configured and tested core functionalities of the **Meditech Expanse pharmacy module**, including drug dictionary standards and formulary integration.
- Collaborated with clinical pharmacy staff to define and validate critical data points such as routes of administration and common dosage ranges, ensuring data accuracy.
- Supported system testing phases, contributing to the validation of integrated workflows and user acceptance testing for the new EHR system.

Clinical Workflow Optimization for Patient Access

- Documented existing patient access workflows and identified key areas for improvement within a healthcare setting.
- Developed proposed system optimizations and process changes to streamline patient registration and information flow, aiming for improved operational efficiency.
- Assisted in the creation of user guides and training documentation for proposed workflow changes, facilitating adoption by end-users.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
