PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided day-to-day support for the practical implementation of health & safety policies and procedures across a manufacturing environment, ensuring adherence to statutory requirements.
- Assisted with hazard identification, risk assessments, and the review of safe working practices, contributing to the reduction of workplace incidents by **15%** over a six-month period.
- Participated in regular workplace inspections and safety audits, meticulously recording findings and following up on agreed actions to maintain compliance with relevant **ISO standards**.
- Supported the management of PPE, including monitoring availability, condition, and appropriate use, ensuring adequate supplies for an operational team of **~50 employees**.
- Assisted with the reporting and investigation of accidents, incidents, and near misses, maintaining accurate health and safety records and ensuring timely follow-up actions.
- Acted as a Safety Representative, proactively contributing to Safety Committee meetings and facilitating discussions on improving working practices.
- Supported the delivery of health and safety awareness initiatives and campaigns across manufacturing teams, including toolbox talks and induction sessions for new hires.

SKILLS

Health & Safety – Risk Assessment, Method Statements, Workplace Inspections, Safety Audits, Accident Investigation, PPE Management, Safety Inductions, Toolbox Talks, Emergency Preparedness, Contractor Management, ISO Standards

Legislation & Compliance – Irish Health and Safety Legislation, Statutory Requirements, Regulatory Compliance

Software & Tools – Microsoft Office Suite, Word, Excel, PowerPoint, Outlook, Jira, Confluence

Core Competencies – Attention to Detail, Problem-Solving, Adaptability, Communication (Written & Verbal), Professionalism, Integrity, Reliability, Proactive Approach

Domain Knowledge – Manufacturing Environment, Electrical Switchgear Products, Workplace Safety

PROJECTS

Safety Procedure Enhancement for Manufacturing Floor

- Developed and documented enhanced safety procedures for the assembly line, focusing on hazard identification and risk mitigation for electrical switchgear components.
- Assisted in the creation of detailed Method Statements for high-risk tasks, ensuring compliance with **Irish Health and Safety legislation** and company policies.
- Conducted follow-up reviews and updated documentation based on feedback from floor supervisors and safety representatives, improving clarity and practical application.

Workplace Safety Audit and Reporting System

- Designed and implemented a structured process for conducting regular workplace safety audits, utilising **Microsoft Excel** for efficient data collection and tracking of corrective actions.
- Compiled comprehensive audit reports detailing findings, identified risks, and proposed actionable recommendations for management review.
- Supported the maintenance of health and safety records, including inspection logs and incident reports, ensuring accuracy and accessibility for compliance purposes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
