HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and supported **AWS infrastructure** across production and non-production environments, responding to alerts and performing routine maintenance.
- Deployed and supported **containerised applications** using **Docker** and **Kubernetes**, ensuring smooth operation and availability.
- Maintained and improved **CI/CD pipelines** for application builds, testing, and deployments, reducing manual intervention by approximately **40%**.
- Implemented infrastructure and configuration changes using **Terraform** and **Ansible**, ensuring consistency and repeatability across environments.
- Monitored system availability, application performance, and infrastructure capacity using tools like **Prometheus** and **Grafana**, identifying potential bottlenecks.
- Investigated incidents, failed deployments, and performance problems, performing root cause analysis and escalating complex issues when required, leading to a **15% reduction** in recurring incidents.
- Automated the application of operating-system, container, and application updates, streamlining the patching process and improving security posture.

SKILLS

Cloud Platform – AWS, EC2, S3, Lambda, CloudWatch, VPC, Route 53, ECR, IAM

Containerisation & Orchestration – Docker, Kubernetes, Helm, Amazon EKS

Infrastructure as Code & Automation – Terraform, Ansible, Jenkins, Git

Monitoring & Logging – Prometheus, Grafana, Splunk, Dynatrace

Operating Systems & Scripting – Linux, Shell Scripting, Python

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Cloud Infrastructure Automation for Enterprise Applications

- Automated the provisioning and configuration of **AWS infrastructure** using **Terraform**, creating reusable modules that reduced deployment time for new environments by **50%**.
- Containerised multiple Java Spring Boot microservices using **Docker** and deployed them to an **Amazon EKS** cluster managed via **Helm** charts.
- Developed Python scripts to automate routine operational tasks, including log analysis and system health checks, integrating them into the existing **CI/CD** pipeline.

CI/CD Pipeline Enhancement for Application Delivery

- Engineered a new **CI/CD pipeline** using **Jenkins** and **Git**, incorporating automated testing stages that improved code quality and reduced manual deployment errors.
- Implemented monitoring and alerting dashboards using **Prometheus** and **Grafana** to provide real-time visibility into application performance and infrastructure health.
- Contributed to the maintenance of production systems, performing incident response and applying necessary updates to ensure system stability and security.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
