HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for core banking operations and integrating with internal data stores.
- Designed and implemented database schemas and wrote complex **SQL** queries across **PostgreSQL** and **Oracle** for data migration and reporting tasks.
- Automated data ingestion and transformation processes using **Python** scripts, building ETL pipelines that processed approximately **50,000 records** daily for downstream analytics.
- Contributed to the development of a **payments operations dashboard**, enhancing transaction monitoring capabilities and implementing real-time alerting for critical financial workflows.
- Managed production incidents for enterprise applications, performing root cause analysis and coordinating resolutions to meet strict service level agreements.
- Configured and managed **Jenkins** CI/CD pipelines for automated builds, testing, and deployments, reducing manual intervention by **40%**.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments across development and production.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

Domain Knowledge – Financial Services Operations, Payments Processing, ERP Systems, Business Intelligence

PROJECTS

Financial Transaction Monitoring System

- Engineered a **Java**-based microservice to process and monitor high-volume financial transaction data, providing real-time status updates.
- Implemented robust error handling and reconciliation logic within the service to ensure data integrity and capture exceptions across payment flows.
- Developed a REST API interface for the monitoring system, enabling integration with upstream and downstream enterprise business systems.

Automated Reporting for ERP Integration

- Developed **Python** ETL scripts to extract data from multiple ERP modules and integrate it into a central data warehouse, automating weekly operational reports.
- Created **SQL** stored procedures and complex queries to transform and aggregate data, reducing manual data manipulation by an estimated **30 hours** per month.
- Designed and built interactive **Power BI** dashboards to visualize key ERP performance indicators for business stakeholders, improving data accessibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
