PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Inputted and reconciled **accounts payable** and **accounts receivable** data, ensuring accuracy for over **500 invoices** monthly.
- Completed weekly **payroll processing** for **three distinct entities** within the group, managing data entry and verifying employee hours.
- Reviewed and recorded **employee expenses**, cross-referencing receipts against company policy and processing reimbursements via the finance system.
- Managed the addition of **new starters** to the HR system and coordinated the accurate distribution of new starter uniforms to **approximately 25 employees** per onboarding cycle.
- Processed **bank payments** by coordinating with the Area Manager and Store Managers to confirm details and execute transactions through the banking portal.
- Coordinated logistics and scheduling for **Manual Handling courses**, managing bookings for **over 40 employees** across multiple locations.
- Developed automated scripts in **Python** to streamline data validation and reporting tasks, reducing manual effort by an estimated **15%** for the finance team.

SKILLS

Accounting – Accounts Payable, Accounts Receivable, Payroll Processing, Bank Payments, Employee Expenses

Software & Systems – Intact IQ, Softworks, Brightpay, SharePoint, HR System, MS Excel, MS Office Suite

Data Management – Data Entry, Data Reconciliation, Data Validation, Data Accuracy

Administration – Invoice Approval, New Starter Onboarding, Uniform Distribution, Course Coordination, Financial Administration

Automation – Python Scripting, Data Validation Scripts

PROJECTS

Automated Invoice Processing Workflow (HCL Technologies)

- Developed a **Python** script to automate the initial validation of incoming invoices against purchase orders, flagging discrepancies for manual review.
- Engineered data transformation logic to ensure consistent formatting for accounts payable entries, integrating with a **PostgreSQL** database.
- Created scheduled reports summarizing invoice status and approval bottlenecks, providing visibility to the finance operations team.

Employee Data Management System Enhancement (HCL Technologies)

- Designed and implemented a new module in a Java Spring Boot application to manage new starter information and uniform assignment tracking.
- Integrated the system with an existing HR database using REST APIs, ensuring seamless data flow for onboarding processes.
- Built administrative interfaces for tracking uniform distribution and confirming employee details, supporting approximately **800 employees**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
