HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented REST APIs in **Java Spring Boot** for core financial transaction processing, handling approximately **1,500 requests per second** during peak hours.
- Engineered **Hibernate** queries and persistence logic for a high-throughput banking dashboard, optimizing data retrieval and reducing average query times by **22%**.
- Developed **JUnit** test suites and integrated **Mockito** mocks for a Java EE application, increasing code coverage by **30%** and reducing production defects by **15%**.
- Contributed to technical design discussions for new features, providing estimates for development effort and ensuring alignment with business objectives within an **Agile Scrum** framework.
- Performed code reviews for peer engineers, identifying potential bugs and ensuring adherence to coding standards and best practices for a team of **5 developers**.
- Containerized enterprise Java applications using **Docker** and managed deployments to **AWS EC2** instances, improving deployment consistency and reducing setup time by **40%**.
- Assisted in the analysis of market trends and the impact of macroeconomic factors on institutional client services, preparing summaries for senior management.

SKILLS

Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, R/RStudio

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace

PROJECTS

Enterprise Payments Processing Service (HCL Technologies)

- Developed a **Java Spring Boot** microservice to handle incoming payment instructions, integrating with a **PostgreSQL** database for state management.
- Implemented asynchronous processing for transaction validation using **JMS** queues, ensuring high availability and decoupling services.
- Designed and built comprehensive **JUnit** and integration tests, achieving over **90%** code coverage for critical business logic.

Client Transaction Analytics Dashboard (MSc Applied Project)

- Created interactive **Power BI** dashboards to visualize transaction volumes, processing times, and error rates for a simulated financial services client.
- Developed complex **DAX** measures to calculate key performance indicators including average transaction value and daily processing throughput.
- Utilized **Power Query** to ETL data from multiple sources into a unified data model, ensuring data integrity for analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
