PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed monthly payroll output reports for accuracy and compliance with **company policies** and **SOX regulations**, identifying and rectifying discrepancies prior to final approval.
- Managed end-to-end monthly payroll processing for the EMEA region, including coordinating with **third-party payroll vendors** and internal finance teams to ensure timely closure and employee payments.
- Prepared accurate payroll-related **accounting entries** and accrual calculations for input into the finance system, ensuring alignment with payroll disbursement data.
- Executed monthly payroll **accounting balance sheet reconciliations** and flux analysis, providing detailed explanations and responding to queries from the accounting department.
- Provided expert advice and support to employees and internal stakeholders on a range of payroll-related inquiries, ensuring clear and timely resolution.
- Developed and delivered **ad-hoc payroll reports** for various business units, supporting strategic decision-making and operational analysis as requested by management.
- Collaborated with internal and external **audit teams**, compiling necessary documentation and responding to requests to facilitate annual payroll compliance reviews.

SKILLS

Payroll Processing – EMEA Payroll, Monthly Payroll, Year-End Reporting, Payroll Payments, Statutory Authorities, Payroll Accounting Principles, Payroll Best Practices

Vendor Management – Third-Party Payroll Vendors, Stakeholder Collaboration, External Payroll Service Provider

Soft Skills – Proactive Nature, Interpersonal Communication, Independent Work, Collaborative Team Environment, Professionalism

PROJECTS

EMEA Payroll Reconciliation & Reporting Enhancement (HCL Technologies)

- Developed Python scripts to automate the reconciliation of payroll data between the primary payroll system and the finance ledger, reducing manual reconciliation time by **40%**.
- Designed and implemented a new reporting framework in Python for generating monthly payroll summaries and statutory filings for the EMEA region, ensuring adherence to **local tax regulations**.
- Collaborated with internal finance stakeholders to gather requirements for enhanced reporting capabilities, leading to the delivery of **three key ad-hoc reports** for management analysis.

Payroll Data Integrity & Audit Support Tool (HCL Technologies)

- Created a **Power BI dashboard** to visualize key payroll metrics and identify potential data integrity issues, providing a clear overview for compliance checks.
- Built SQL queries to extract and validate employee payment data against master records, supporting the preparation of data for **external audit requests**.
- Documented the end-to-end payroll processing workflow and data flow for audit purposes, improving clarity for new team members and auditors.
