PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided technical analysis and cloud engineering insights for market investigations and regulatory policy papers related to the EU Data Act.
- Developed and implemented automated tools and testing systems using **Python scripting** to monitor regulatory compliance for cloud switching and interoperability standards.
- Audited regulated entities against **Data Act interoperability** and cloud-switching standards, identifying compliance gaps and recommending remediation strategies.
- Containerized enterprise applications using **Docker** for deployment to **Kubernetes** clusters, ensuring consistent environments across development and production.
- Managed and administered core **Azure** services including **AKS**, **Virtual WAN**, **Cosmos DB**, and **Entra ID** as part of cloud workload operations.
- Contributed to CI/CD pipelines using **Azure DevOps** for automated application deployments and infrastructure provisioning.
- Collaborated with cross-functional teams to integrate new cloud services and manage infrastructure changes within a regulated sector environment.

SKILLS

Cloud Platforms – Azure (AKS, Virtual WAN, Cosmos DB, Entra ID), GCP, OpenStack

Containerization & Orchestration – Docker, Kubernetes

Infrastructure as Code & CI/CD – Terraform, Azure DevOps, Jenkins

Scripting & Automation – Python, Shell Scripting

Data Act & Compliance – Interoperability Standards, Cloud Switching, Regulatory Audits

Operating Systems & Networking – Linux, TCP/IP

PROJECTS

Cloud Compliance Monitoring Platform

- Engineered a Python-based automation framework to audit cloud configurations against Data Act requirements, processing over 500 configuration checks per entity.
- Developed interactive dashboards using **Power BI** to visualize compliance status and identify high-risk entities for the regulatory oversight team.
- Integrated custom scripts with **Azure DevOps** pipelines for automated deployment of monitoring agents and configuration validation checks.

Kubernetes-based Application Deployment Framework

- Designed and implemented a CI/CD pipeline for packaging and deploying microservices to a self-managed **Kubernetes** cluster using **Docker** and Helm charts.
- Managed application configurations and secrets using **Terraform**, ensuring secure and repeatable deployments to the cluster infrastructure.
- Provided operational support for the containerized applications, monitoring performance and troubleshooting deployment issues in a production-like environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
