PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and translated complex business requirements into clear user stories and technical specifications for IT solutions, working directly with project stakeholders to define quality criteria.
- Designed and documented IT solutions, creating essential project artefacts including user stories, process diagrams, and data dictionaries to support project delivery.
- Provided crucial support to Solution Architects by contributing to the definition and documentation of technical architectures, ensuring alignment with business objectives.
- Reviewed and provided feedback on third-party artefacts, collaborating with Solution Architects to ensure technical solutions met evolving business needs.
- Supported Development and QA teams throughout the software development lifecycle, facilitating efficient testing and issue resolution.
- Gained a comprehensive understanding of business operations and systems, mapping processes and identifying areas for technological enhancement.
- Managed change control processes for system configurations, coordinating User Acceptance Testing (UAT) and providing post-go-live support for integrated enterprise systems.

SKILLS

Core Competencies – Analytical Thinking, Technical Acumen, Business Acumen, Communication Skills, Relationship Management

Requirements & Documentation – User Stories, Technical Specifications, Data Dictionaries, API Guides, Release Notes, Process Diagrams

Technical Skills – JSON, XML, Relational Data Design, MySQL, MariaDB, MS SQL

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Git, Jenkins

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Programming & Scripting – Java, Spring Boot, Python, SQL

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy

PROJECTS

Enterprise Systems Integration Analysis (HCL Technologies)

- Analyzed and documented integration requirements between core ERP modules and an enterprise financial-services operations dashboard, defining data exchange protocols using JSON and XML.
- Developed comprehensive API guides and data dictionaries for cross-system integrations, facilitating clear understanding for development teams and business stakeholders.
- Supported the Solution Architect in defining the technical architecture for a new reconciliation workflow module, ensuring adherence to GDPR and audit trail requirements.

Financial Transaction Monitoring Dashboard Enhancement (HCL Technologies)

- Gathered requirements from operations teams to enhance a payments operations dashboard, translating needs into detailed user stories for monitoring failed and stuck transaction messages.
- Provided direct support to development teams during the implementation of new alerting features, clarifying requirements and assisting with UAT.
- Documented best practices for transaction monitoring and incident response procedures, contributing to improved operational efficiency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
