HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for cross-service communication, incorporating robust error handling and request validation patterns.
- Developed and maintained **Hibernate** entities and JPA repositories to manage data persistence across relational databases, ensuring data integrity for core business logic.
- Authored **JUnit** and **Mockito** tests for critical Java components, achieving 85% code coverage and significantly reducing post-deployment defects.
- Collaborated with product managers and engineers to define technical requirements for new **full-stack features**, translating business needs into actionable development tasks.
- Participated in peer code reviews, providing constructive feedback on **React** and **TypeScript** implementations to uphold code quality and team standards.
- Contributed to system design discussions for evolving the **service-oriented architecture**, focusing on scalability and maintainability of dealer-facing products.
- Deployed containerized applications to **AWS EC2** instances using **Docker** and managed CI/CD pipelines with **Jenkins** for automated testing and releases.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, JUnit, Mockito, Maven

Frontend Development – React, JavaScript, TypeScript

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle, SQL

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Linux Shell Scripting

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java modules into a **Spring Boot microservice** architecture, improving system modularity and enabling independent deployment cycles.
- Integrated **Hibernate** with **PostgreSQL** to manage complex transaction data, optimizing query performance and reducing average data retrieval times by 30%.
- Developed comprehensive unit and integration tests using **JUnit** and **Mockito**, ensuring the stability of core financial transaction processing logic.

Dealer Product Integration Platform (HCL Technologies)

- Built **REST APIs** using Java Spring Boot to facilitate data exchange between internal systems and partner platforms, supporting seamless integration for ~50 dealership clients.
- Implemented asynchronous processing using **AWS Lambda** and SQS for background tasks such as report generation and data synchronization, handling approximately 1,500 requests per hour.
- Collaborated with business analysts to gather requirements for new integration features, ensuring alignment with client operational workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
