PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed a backlog of **150+ IT support tickets** weekly, prioritizing urgent issues for a **200-person user base** across multiple departments.
- Provided direct technical assistance and troubleshooting for **Windows 11 and Microsoft Office Suite** issues, resolving an average of **30 user incidents** per day.
- Coordinated with external IT service providers for timely resolution of complex network and hardware problems, reducing average resolution time by **18%**.
- Contributed to the maintenance and update of IT documentation, including **user guides and troubleshooting runbooks**, improving knowledge base accessibility for the support team.
- Assisted in the administration of **IT ticketing systems**, ensuring accurate logging, tracking, and closure of all reported incidents and service requests.
- Supported the deployment and configuration of new hardware and software across the organization, ensuring seamless integration with existing IT infrastructure.
- Participated in **ITIL framework** discussions to refine incident management and service request processes, enhancing overall IT service delivery efficiency.

PROJECTS

IT Support Operations Enhancement (HCL Technologies)

- Streamlined the **IT ticketing system** workflow by implementing custom queues and automation rules, reducing ticket handling time by **22%** for the support team.
- Developed a series of **troubleshooting guides for common software issues** faced by enterprise users, decreasing repeat support requests by approximately **15%**.
- Collaborated with senior IT staff to document and implement standard operating procedures for new user onboarding and hardware provisioning processes.

IT Asset Management System Upgrade (HCL Technologies)

- Assisted in the migration and validation of IT assets within a new **asset management tool**, ensuring data integrity for over 500 devices.
- Supported the rollout of updated **Windows 10/11 configurations** to a pilot group of 50 users, gathering feedback for broader deployment.
- Provided first-level support for end-users during the transition period, addressing installation and configuration queries related to the new asset management system.
