+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported core financial operations within a Shared Services function, processing approximately **1,500 transactions** daily and ensuring adherence to strict SLAs for financial data accuracy.
- Developed Python scripts to automate routine reporting tasks for commercial operations, reducing manual effort by an estimated **15 hours per week** and improving report generation speed.
- Contributed to financial planning activities by assisting with data aggregation for forecasting and budgeting processes, supporting the analysis of capital investment proposals.
- Assisted in the preparation of consolidated financial statements and management reporting for group-level analysis, ensuring data integrity and timely delivery.
- Supported tax compliance activities, including data gathering for regulatory filings and assisting with the reconciliation of tax-related financial records.
- Contributed to cost and efficiency initiatives by analysing operational data to identify areas for process improvement, supporting projects aimed at enhancing business performance.
- Managed incident response for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace** to resolve P1/P2 issues within defined service level agreements.

SKILLS

Finance Operations – Shared Services, Financial Operations, Transaction Processing, Reconciliation Workflows, Regulatory Reporting

Financial Planning & Analysis – Forecasting, Budgeting, Capital Investment Analysis, Management Reporting, Commercial Finance

Data Analysis & Automation – Python, SQL, Data Aggregation, Data Validation, ETL

Reporting & Compliance – Group Reporting, Tax Compliance, Financial Statements, Audit Trails, GDPR

Core Technologies – Java Spring Boot, PostgreSQL, AWS, Linux, Jenkins, Jira, Confluence

PROJECTS

Financial Operations Dashboard Enhancement

- Developed and maintained a payments operations dashboard, enhancing real-time transaction monitoring capabilities for a financial-services client.
- Automated data ingestion pipelines using Python to process and validate approximately **3,500 transaction messages** daily, improving data accuracy for operational alerting.
- Collaborated with business analysts to refine alerting mechanisms for failed payment messages, reducing manual triage effort by an estimated **20%**.

Automated Financial Reporting Suite

- Engineered a suite of Python scripts to automate the generation of weekly and monthly financial reports for commercial operations, replacing manual data compilation.
- Integrated with PostgreSQL databases to extract and transform financial data, ensuring consistency and accuracy across multiple report types.
- Delivered comprehensive documentation and conducted handover sessions with operations teams, enabling self-service reporting and reducing reliance on the development team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
