PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed Python scripts to automate data ingestion and transformation processes for financial reporting, reducing manual effort by approximately **40%**.
- Designed and implemented **Java Spring Boot** REST APIs to integrate enterprise systems, facilitating seamless data exchange between internal platforms.
- Managed production support for enterprise applications, ensuring **SLA adherence** and resolving P1/P2 incidents within defined timeframes using **Splunk** and **Dynatrace**.
- Built and maintained **cloud-based data pipelines** on **AWS**, processing diverse datasets for analytics and operational reporting.
- Prototyped **data-driven solutions** in collaboration with business teams, translating requirements into actionable insights and initial model concepts.
- Analyzed operational processes and uncovered key performance insights through data exploration, supporting smarter decision-making across departments.
- Configured and managed **cloud infrastructure** on **AWS**, including EC2 instances and S3 buckets, supporting application deployment and data storage needs.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Data Analytics & BI – Data Modelling, DAX, Power Query, ETL, Dashboards, Data Visualisation

Methodologies – Agile, Scrum

PROJECTS

Automated Data Processing Pipeline for Operations

- Engineered a **Python**-based ETL pipeline to ingest and process operational data from multiple sources, automating report generation and reducing processing time by **35%**.
- Implemented data validation checks and error handling within the pipeline to ensure data integrity, supporting consistent reporting for **enterprise operations**.
- Containerized the pipeline components using **Docker**, enabling consistent deployment across development and production environments on **AWS**.

Interactive Dashboard for Business Insights

- Developed interactive **Power BI** dashboards to visualize key performance indicators for business stakeholders, consolidating data from various operational systems.
- Designed and implemented **DAX** measures and a robust data model in **Power BI** to support complex analytical queries and reporting needs.
- Published and maintained dashboards on the **Power BI** service, providing stakeholders with self-service access to critical business insights.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
