HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot** microservices for new feature development, adhering to SOLID principles and ensuring robust API contracts.
- Engineered data pipelines using **Python** and **pandas** to automate ETL processes, transforming and validating data from disparate sources for downstream analysis.
- Designed and implemented **Hibernate** mappings and queries for complex relational data models, optimizing object-relational persistence and reducing query execution times by an average of **22%**.
- Contributed to the design and implementation of **real-time systems** supporting airport operations, ensuring high availability and data integrity for 24/7 processes.
- Built and maintained **automation pipelines** and configured cloud infrastructure in **Azure**, enhancing deployment efficiency and system resilience.
- Prototyped **data-driven solutions** with business teams, translating requirements into actionable analytical insights and functional prototypes.
- Containerized applications using **Docker** and managed deployments on **Azure Kubernetes Service (AKS)**, configuring resource limits and basic networking rules.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, REST APIs, Microservices, Python, FastAPI

Data Engineering & Analytics – SQL, PostgreSQL, MySQL, Oracle, pandas, NumPy, Power BI, Tableau, DAX, Power Query, Data Warehousing

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, Azure Kubernetes Service (AKS), Docker

DevOps & CI/CD – Jenkins, Git, GitHub, Jira, Confluence, Agile, Scrum

System Support & Observability – Splunk, Dynatrace, Linux, Shell Scripting, Incident Response, Change Management

PROJECTS

Enterprise Java Application Modernization

- Refactored monolithic enterprise applications into a suite of **Java Spring Boot** microservices, improving modularity and maintainability.
- Implemented **Hibernate** for data persistence, developing complex query strategies and optimizing ORM performance across transactional data stores.
- Containerized the new microservices using **Docker**, facilitating consistent deployments across development, staging, and production environments.

Airport Operations Data Dashboard

- Developed interactive **Power BI** dashboards to visualize key airport operational metrics, providing stakeholders with real-time insights into flight status and passenger flow.
- Engineered data pipelines using **Python** and **Power Query** to ingest, clean, and transform data from various airport systems into a structured format for analysis.
- Wrote complex **DAX** measures to support analytical queries and enhance the reporting capabilities of the operational dashboards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
