HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **production support** for enterprise applications, responding to P1/P2 incidents and managing SLAs using **Splunk** and **Dynatrace**.
- Automated data ingestion and reporting tasks using **Python scripting**, reducing manual effort for the operations team by approximately **15%**.
- Developed and maintained **Java Spring Boot REST APIs** for cross-service data exchange, ensuring robust error handling and efficient request processing.
- Configured and managed **handheld devices** including tablets and iPads, ensuring full operational functionality and user satisfaction.
- Supported the maintenance of **factory floor IT systems**, including hardware, software, and network components, to ensure continuous operations.
- Researched potential technology solutions and assisted in creating proposals for **pricing and system options** for new industrial IT initiatives.
- Containerized applications using **Docker** and deployed to **AWS EC2 instances**, improving deployment consistency and simplifying environment management.

SKILLS

Industrial IT – OT Support, Factory Floor Systems, Equipment Maintenance, Asset Management, Continuous Improvement, PDCA, IWS Methods

Operating Systems – Linux, Windows Server 2016-2022, Windows 10, Windows 7

Networking – DHCP, DNS

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Hardware – Printers, Scanners, Computers, Servers, Tablets, iPads

Software & Tools – Active Directory, VMware, Vsphere, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, CloudWatch

Programming Languages – Java, Python, SQL

PROJECTS

Industrial Equipment Monitoring System (HCL Technologies)

- Developed a **Python script** to parse logs from factory floor equipment, identifying recurring error patterns and reducing troubleshooting time by **20%**.
- Integrated the script with **Splunk** to create operational dashboards, providing real-time visibility into device status for the site technology manager.
- Implemented automated alerting for critical equipment failures, enabling faster response times and minimizing production downtime.

Production Data Collection & Reporting Automation

- Engineered a **Java Spring Boot application** to collect and aggregate production data from various shop-floor systems via REST APIs.
- Built automated **ETL pipelines using Python** to process and transform collected data, generating daily operational reports for the performance team.
- Deployed the application and pipelines on **AWS Lambda**, ensuring scalable and reliable data processing for fluctuating production loads.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
