+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Configured and maintained **hand-held devices** including tablets and iPads for factory floor operations, ensuring seamless integration with industrial IT systems.
- Resolved end-user tickets related to **printers, scanners, computers, and servers**, confirming full operational functionality restoration with users to meet defined resolution times.
- Supported the OT teams in the maintenance of **hardware, software, and network** systems, contributing to overall site technology stability and performance.
- Researched and proposed **pricing and system options** for potential IT solutions, assisting management in informed decision-making for technology investments.
- Carried out analysis and **monitoring of system bugs and issues**, identifying trends to proactively address potential disruptions and improve system reliability.
- Collaborated within an **agile team** to define feature requirements and manage small to medium-sized industrial production projects, ensuring alignment with digital initiatives.
- Contributed to the **documentation and sharing of knowledge** and experience with colleagues, supporting a culture of continuous learning and improvement within the team.

## SKILLS

**IT/OT Support** – Troubleshooting, Ticket Resolution, Hardware Maintenance, Software Maintenance, Network Support, End-User Support, Asset Management, Deployment, Retirement, PDCA Process

**Operating Systems** – Windows Server 2016, Windows Server 2019, Windows Server 2022, Windows 10, Windows 7

**Networking Concepts** – DHCP, DNS

**Database Technologies** – SQL Server

**Core Technologies** – Active Directory, VMWare, Vsphere, Printers, Scanners, Servers, Tablets, iPads, Computers, Emulators

**Project Management** – Agile Methodologies, Project Delivery, Requirements Gathering, Technical Estimation

**Cybersecurity** – Cybersecurity Protocols, Patching, Vulnerability Management, Change Management, DRP, BIA

## PROJECTS

### Factory Floor Device Management and Support System

- Developed a system for tracking and managing factory floor IT assets, including **ordering, receiving, labelling, deployment, and retirement** processes, adhering to Danone's governance compliance.
- Implemented a streamlined process for **troubleshooting and resolving issues** on various end-user devices such as printers, scanners, and tablets, ensuring minimal disruption to operations.
- Created comprehensive documentation for asset lifecycle management and common troubleshooting procedures, facilitating knowledge transfer for new team members supporting industrial IT.

### Industrial Software Integration and User Support

- Assisted end-users with **industrial-specific and bespoke software**, providing guidance and support to enhance operational efficiency and effectiveness.
- Configured and maintained **hand-held devices** (tablets, iPads) to support factory floor specific operations, ensuring compatibility with bespoke manufacturing execution systems.
- Participated in the analysis of system bugs and reporting trends, contributing to the identification of root causes and the development of long-term solutions for industrial software.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
