PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Compiled and maintained regular management reports and dashboards, analyzing key business metrics and performance indicators to identify trends and opportunities for the commercial team.
- Developed reporting solutions in **Power BI** that enhanced visibility and consistency, translating complex data into actionable business intelligence for senior management.
- Assisted in forecasting, trend analysis, and scenario modelling to support business planning and budgeting activities, providing analytical input on potential business opportunities.
- Supported the development and enhancement of performance scorecards and reporting frameworks, tracking performance against agreed objectives and key metrics for client success initiatives.
- Gathered and documented business requirements for reporting and analytical needs, acting as a liaison between operational teams and support functions to ensure accurate data capture.
- Contributed to data quality improvement initiatives across business systems, assisting in maintaining data integrity and identifying issues for corrective action in collaboration with stakeholders.
- Managed multiple priorities and deadlines effectively in a fast-paced environment, ensuring timely delivery of analytical insights and support for business readiness activities.

SKILLS

Reporting & Analysis – Management Reporting, Performance Analysis, Business Metrics, Trend Analysis, Data Analysis, Forecasting, Scenario Modelling, Business Intelligence, Management Information

BI & Visualization Tools – Power BI, Tableau, DAX, Power Query

Data Management & Governance – Data Quality, Data Integrity, Data Governance, Data Management Processes

Business Analysis & Support – Business Requirements, Stakeholder Engagement, Decision Support, Performance Scorecards, Budgeting, Planning, UAT Support

Core Technologies – SQL, Microsoft Excel, Python, R

PROJECTS

Enhanced Client Performance Dashboard Suite

- Developed a suite of **Power BI** dashboards to provide granular insights into client performance metrics, consolidating data from multiple sources via **Power Query**.
- Designed and implemented complex **DAX** measures to calculate key performance indicators and support trend analysis, enabling stakeholders to track progress against strategic objectives.
- Collaborated with business stakeholders to gather requirements and refine dashboard visualizations, ensuring the final reports were intuitive, accurate, and actionable for decision-making.

Financial Operations Data Analysis and Reporting

- Performed ad-hoc data analysis using **SQL** and **Python (pandas)** on large transaction datasets to support operational reporting and identify areas for process improvement.
- Automated the generation of weekly operational reports using Python scripts, reducing manual effort by approximately 40% and improving reporting timeliness.
- Assisted in data validation and reconciliation efforts, ensuring accuracy and consistency of financial data presented in management reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
