HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Python** scripts to automate data extraction and transformation for manufacturing reports, reducing manual processing time by **30%**.
- Assisted in the troubleshooting and debugging of **PLC-controlled equipment**, identifying root causes for operational anomalies and contributing to resolution.
- Supported the integration and initial testing of **robotics and automated manufacturing equipment** within the Cork facility's production lines.
- Wrote **SQL** queries to extract and validate data from manufacturing databases, improving the accuracy of operational dashboards.
- Collaborated with cross-functional teams to support **New Product Introduction (NPI)** activities, ensuring manufacturing readiness for new product releases.
- Worked with **Linux** shell scripting to manage log files and automate routine system maintenance tasks on production servers.
- Containerized applications using **Docker** for consistent deployment across development and testing environments.

SKILLS

Programming Languages – Python, Java, SQL, C#

Automation & Controls – PLC programming, Siemens, Allen-Bradley, Robotics, Industrial Automation

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Scripting & Automation – Linux Shell Scripting, Cron Jobs, Python Scripting

Manufacturing & Operations – NPI, Manufacturing Engineering, Data Visibility, Process Improvement

PROJECTS

Manufacturing Data Visibility Tool (HCL Technologies)

- Developed a **Python** application to aggregate production data from disparate sources, providing a unified view for operational teams.
- Implemented **SQL** queries against PostgreSQL to retrieve and process historical manufacturing metrics, supporting trend analysis.
- Designed and built interactive dashboards using **Power BI** to visualize key performance indicators, enhancing decision-making for production supervisors.

Automated Production Monitoring Script (HCL Technologies)

- Created **Python** scripts to monitor manufacturing system logs in real-time, automatically flagging critical errors and generating alerts.
- Integrated with **Splunk** to parse and analyze log data, reducing the time to identify production issues by approximately **40%**.
- Scheduled script execution using **Linux cron jobs** for continuous background monitoring of enterprise applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
