PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported order routing and lead-time maintenance for **transportation and fulfillment operations**, conducting analysis to ensure shipment quality met organizational standards.
- Identified opportunities to enhance the supply chain and resolve escalations, assisting in the day-to-day operational aspects of logistics and implementing process changes.
- Monitored **logistics provider service levels** and key performance indicators, holding partners accountable to standard operating procedures and identifying areas for improvement.
- Managed backlog and capacity at fulfillment locations, including exception handling for expedites, order prioritization, and delivery escalations.
- Analyzed operational data using **SQL** and **Python scripting** to identify trends and support decision-making in logistics and fulfillment processes.
- Collaborated with cross-functional teams and **logistics providers** to gather requirements, troubleshoot issues, and ensure smooth daily operations.
- Containerized operational reporting scripts using **Docker**, enabling consistent deployment across various environments and simplifying dependency management.

SKILLS

Logistics & Supply Chain – Transportation, Fulfillment, Order Routing, Lead-Time Maintenance, Logistics Providers, Service Levels, KPIs, Exception Management, Expedites, Order Prioritization, Delivery Escalations

Analytics & Reporting – Data Analysis, Operational Reporting, Data Visualization, SQL, Python Scripting

Operations Management – Process Improvement, Escalation Resolution, Capacity Management, Backlog Management, Standard Operating Procedures

Tools & Technologies – Docker, Jira, Confluence, Linux Shell Scripting

Data Handling – Data Validation, Ad-hoc Queries, Data Flow Management

PROJECTS

Logistics Operations Dashboard Enhancement

- Developed a dashboard using **Power BI** to visualize key performance indicators for transportation and fulfillment operations, improving visibility into provider service levels.
- Integrated data from multiple logistics providers through **SQL queries** and Power Query, consolidating information for comprehensive analysis and reporting.
- Assisted in identifying bottlenecks in the fulfillment process by analyzing operational data, contributing to a **15% reduction** in average exception handling time.

Automated Logistics Reporting Pipeline

- Engineered a **Python**-based pipeline to automate the generation of daily and weekly logistics reports, reducing manual effort by approximately **10 hours per week**.
- Implemented data extraction and transformation logic using **pandas** and SQL to process shipment data, ensuring accuracy and consistency in reporting outputs.
- Containerized the reporting application with **Docker** to ensure consistent execution across different environments and simplify deployment for operational teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
