PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported programme management for complex digital transformation initiatives within the Technology, Media, and Telecommunications (TMT) sector, focusing on achieving operational and transformational goals.
- Contributed to digital strategy and planning projects, assisting in the assessment and documentation of current-state (As-Is) processes and the design of target-state (To-Be) solutions.
- Provided analysis and insight generation using data to support operational improvements and reporting for TMT clients, identifying key areas for enhancement.
- Developed and maintained **Python** scripts for automating data pipelines and scheduled reporting tasks, improving efficiency by approximately **18%** in data processing workflows.
- Engineered and supported **Java Spring Boot** REST APIs for cross-service data exchange, ensuring robust communication between internal systems.
- Managed production environments for enterprise applications, including **Splunk** and **Dynatrace** monitoring, and responding to P1/P2 incidents to maintain service level agreements.
- Containerised applications using **Docker** for consistent deployment across development and production environments on **AWS EC2** instances.

SKILLS

Programme & Change Management – Project Delivery, Operational Transformation, Stakeholder Engagement, Digital Strategy, Operating Model Design, Process Assessment, Requirements Gathering

Automation & AI – Generative AI, Digital Operations, Cloud Technologies, Emerging Innovations, RPA, AI Tools

Data Analytics & Insight – Data Analysis, Actionable Insights, Operational Improvements, Reporting, Strategic Thinking, Data-Driven Insights

TMT Sector Knowledge – Technology Infrastructure, Internet Regulation, Cloud Operations, Digital Transformation

Core Technologies – Python, Java, Spring Boot, REST APIs, SQL, PostgreSQL, AWS, Docker, Linux, Git, Jenkins, Jira, Splunk, Dynatrace

PROJECTS

TMT Sector Digital Transformation Support

- Assisted in supporting a major digital transformation programme for a large enterprise client in the TMT sector, focusing on process re-engineering and technology adoption.
- Documented current-state operational processes and collaborated with senior analysts to design future-state workflows, incorporating automation and cloud-based solutions.
- Generated analytical reports using **Python** and **SQL** to highlight key performance indicators and identify opportunities for operational efficiency gains for client stakeholders.

Enterprise Systems Integration & Automation

- Developed **Python** scripts to automate data extraction and transformation tasks from legacy systems, reducing manual effort by approximately **40%** for a reporting team.
- Integrated disparate enterprise systems using **Java Spring Boot** REST APIs, facilitating seamless data flow and improving inter-application communication.
- Supported the change management process for system configuration updates, including UAT coordination and post-go-live issue resolution for interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
