PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Review and action user-generated content against a large-scale online platform's **community standards** and policies.
- Investigate escalated abuse cases including harassment, hate speech, scams, and graphic content.
- Document enforcement decisions and flag emerging abuse trends for **policy enforcement**.
- Consistently meet quality audit, calibration, accuracy, and productivity targets for content review.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed Java Spring Boot features and REST APIs, ensuring adherence to business logic for rule-based validation.
- Implemented Python scripts for data pipelines, supporting data extraction and transformation for investigative analysis.
- Managed SQL databases (PostgreSQL, MySQL, Oracle), performing data validation and schema adjustments for audit trails.
- Responded to P1/P2 incidents for enterprise applications, managing SLAs and coordinating with stakeholders.
- Monitored production systems using Splunk and CloudWatch, identifying and resolving operational alerts.
- Documented incident responses and runbook updates for effective **escalations** and knowledge sharing.
- Collaborated with business analysts on requirements and UAT support for system integrations and change management.

SKILLS

Reconciliation – Daily reconciliation of security positions, investigation of differences, root cause identification.

Risk Management – Regulatory compliance (e.g. CSDR), minimizing errors, identifying undue deletion or creation of securities.

Stakeholder Management – Maintaining connections with internal and external counterparties, reporting status.

Process Improvement – Implementing new methods, automating and streamlining processes, continuous improvement mindset.

Technical Skills – Clearstream systems, complex inhouse IT systems, analytical skills, detail orientation.

Communication – Excellent written and spoken English, adaptive, fast learner, independent trouble shooter.

PROJECTS

Customer Churn Prediction (MSc Data Analytics)

- Developed predictive models using Python (pandas, scikit-learn) to identify at-risk customers, aiding proactive retention strategies.
- Visualized key churn indicators and model performance metrics using Power BI dashboards for stakeholder review.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026
