PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated project schedules, resource allocation, and information flow for multiple infrastructure development initiatives, ensuring alignment with client objectives.
- Liaised with clients to define project requirements, scope, and objectives, translating business needs into actionable project plans and technical specifications.
- Maintained comprehensive risk and issue logs, actively supporting the implementation of mitigation strategies to preempt project delays and scope creep.
- Facilitated communication between contractors, designers, and statutory stakeholders to drive project progress and resolve interdependencies efficiently.
- Supported procurement and contract administration activities by preparing documentation and coordinating vendor communications, ensuring compliance with project guidelines.
- Managed document control processes for project-related deliverables, maintaining an organised repository of plans, reports, and correspondence for easy access and auditability.
- Assisted in the development of project budgets and tracked expenditures against planned allocations, contributing to financial oversight and reporting.

SKILLS

Project Management – Project Planning, Execution, Monitoring, Risk Management, Issue Resolution, Stakeholder Management, Procurement Support, Contract Administration, Document Control, Budget Management

Tools & Technologies – MS Office, MS Project, ERP (Oracle), Primavera 6

Methodologies – Agile, Scrum

Domain Knowledge – Infrastructure Development, Smart Cities, Active Travel, Water & Wastewater, Rail & Urban Transit, Structural Design, Civil Engineering

Soft Skills – Communication, Interpersonal Skills, Organizational Abilities, Multitasking

PROJECTS

Infrastructure Project Planning & Coordination System

- Developed a Python-based system to automate the generation of project schedule templates and resource allocation matrices for infrastructure projects, reducing manual effort by 40%.
- Integrated the system with a PostgreSQL database to manage project documentation and stakeholder communication logs, enabling efficient retrieval of project-related information.
- Designed a reporting module that pulled data on project milestones and resource utilization, providing key insights for project managers to track progress against baseline plans.

Client Requirements Gathering & Scoping Tool

- Built a web application using Flask and Jinja2 to capture and structure client requirements for new infrastructure projects, standardizing the scope definition process.
- Implemented a user interface that guided clients through defining project objectives, key deliverables, and success criteria, improving clarity and reducing ambiguity in initial project phases.
- Created an export function to generate detailed scope documents in PDF format, facilitating formal client sign-off and handover to the project execution team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
