HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 alerts and performing root cause analysis to maintain service level agreements.
- Developed Python scripts to automate data extraction and transformation tasks for scheduled reporting, processing approximately **50GB** of data nightly.
- Designed and implemented REST APIs using **Java Spring Boot** for inter-service communication, handling over **1,500 requests** per minute during peak load.
- Supported and integrated with enterprise business systems, coordinating change control management for system configuration updates across interconnected platforms.
- Collaborated with cross-functional teams to gather requirements and support User Acceptance Testing for new system features.
- Containerized multiple Java applications using **Docker**, enabling consistent deployment environments across development and production.
- Executed ad-hoc SQL queries and performed data validation across **PostgreSQL** and **MySQL** databases for operational reporting and troubleshooting.

SKILLS

Languages – Java, Python, SQL, Linux Shell Scripting

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring/Observability – Splunk, Dynatrace, CloudWatch

Tools – Jira, Confluence

Analytics/BI – Power BI, Tableau, DAX, Power Query

PROJECTS

Enterprise Application Support Automation (HCL Technologies)

- Automated routine production support tasks by developing Python scripts that monitored application logs via **Splunk**, reducing manual effort by an estimated **15%** per week.
- Built a data pipeline using Python to extract and transform operational metrics from multiple sources into a consolidated dataset for trend analysis.
- Implemented incident response procedures that involved analysing alerts from **Dynatrace** and executing predefined remediation steps for critical system failures.

Internal Systems Integration Service (HCL Technologies)

- Developed a **Java Spring Boot** microservice to facilitate data exchange between an internal ERP system and a custom reporting tool, handling approximately **500 API calls** daily.
- Designed and implemented RESTful endpoints with request validation and error handling, ensuring data integrity across integrated systems.
- Managed database schema changes and performed data migration tasks in **PostgreSQL** to support new integration requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
