PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to SLAs using **Splunk** and **Dynatrace** for monitoring.
- Developed Python scripts for automating data ingestion and ETL processes, improving data pipeline efficiency for scheduled reporting tasks.
- Executed ad-hoc SQL queries and managed schema changes across PostgreSQL and Oracle databases to support business analytics and system integration.
- Designed and implemented REST APIs using **Java Spring Boot** for new service features, focusing on maintainable code and efficient data exchange.
- Containerised Java Spring Boot applications using **Docker** for deployment on **AWS EC2** instances, enhancing portability and simplifying environment management.
- Contributed to the development and maintenance of a **payments operations dashboard** for a financial-services client, focusing on transaction monitoring and alerting for failed messages.
- Coordinated change management processes for system configurations and supported User Acceptance Testing (UAT) across interconnected enterprise business systems.

SKILLS

Languages – Java, Python, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Monitoring – Splunk, Dynatrace, Jira, Confluence

Analytics & BI – Power BI, Tableau, DAX, Power Query, R/RStudio

Domain Knowledge – Payments Operations, Transaction Monitoring, ERP Integration, GDPR Compliance

PROJECTS

Financial Services Transaction Monitoring Dashboard

- Developed Java Spring Boot microservices to ingest and process transaction data, feeding into an operational dashboard for monitoring payment flows.
- Implemented robust error handling and alerting mechanisms using **Splunk** to notify operations teams of failed or stalled transactions, reducing manual oversight by **40%**.
- Collaborated with business analysts to refine dashboard requirements, ensuring accurate display of key performance indicators for transaction processing efficiency.

Automated ERP Data Extraction and Reporting Pipeline

- Built Python scripts to extract data from multiple ERP modules via **SQL** queries against PostgreSQL and Oracle databases.
- Developed an automated data pipeline using **pandas** to transform and aggregate extracted data into standardized formats for weekly operational reports, saving approximately **8 hours** of manual work per week.
- Integrated the reporting process with **Jenkins** for scheduled execution, ensuring timely delivery of business insights to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
