HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained core back-end services for an AI research platform using **Python** and **FastAPI**, handling over **4,000 requests per minute** for model inference.
- Engineered **TypeScript** and **React** components for a customer-facing creative studio product, improving user interaction flow and reducing task completion time by **18%**.
- Designed and implemented end-to-end **API workflows** for enterprise clients, integrating generative output from image and video models into their existing systems.
- Collaborated with product and sales teams to gather requirements and scope new proof-of-concept products, directly translating customer needs into actionable engineering tasks.
- Improved existing product architecture by implementing **sweeping changes** to enhance intuitiveness and incorporate latest research breakthroughs, impacting **millions of users**.
- Managed and processed **massive-scale datasets** for training next-generation voice models, ensuring data integrity and readiness for downstream ML pipelines.
- Containerized microservices using **Docker** and deployed them to a **Kubernetes** cluster (AWS EKS), configuring basic resource limits and ensuring predictable rollouts.

SKILLS

Languages – Python, Typescript, Java, SQL, R

Web Development – React, Angular, Node.js, NestJS, FastAPI, Flask

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Data & ML – pandas, NumPy, scikit-learn, Data Modelling, ETL, Power BI, Tableau, DAX

Frameworks & Libraries – Spring Boot, React

PROJECTS

AI Creative Studio Platform (HCL Technologies)

- Built **Python**-based backend services using **FastAPI** to serve generative AI models for image and video creation, processing approximately **3,000 requests per hour**.
- Developed **React** frontend components for a user interface that allows creators to generate and edit multimedia content, supporting over 70 languages.
- Integrated core AI model APIs with a new **TypeScript**-based client application, enabling seamless content generation workflows.

Enterprise Customer Onboarding for GenAI Tools (HCL Technologies)

- Acted as the primary technical contact for two pilot enterprise customers, translating their business needs into functional requirements for AI-powered content generation tools.
- Designed and implemented a **Python**-based integration layer that connected the company's generative models to customer-specific data pipelines, reducing manual data preparation by **40%**.
- Delivered technical walkthroughs and provided post-sales support to customer engineering teams, ensuring successful integration and adoption of the platform.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
