HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **React** front-end components for customer-facing applications, translating UX designs into functional interfaces used by millions of users.
- Designed and implemented **TypeScript**-based APIs and back-end services to support new product features, integrating with existing AI models and data pipelines.
- Collaborated with product managers and cross-functional teams to gather requirements and define technical specifications for new platform features, focusing on user workflows and pain points.
- Improved the performance and scalability of existing **Python**-based data processing pipelines, reducing execution time by **30%** for critical ETL jobs.
- Containerized microservices using **Docker** and deployed them to **AWS ECS**, establishing CI/CD pipelines with **Jenkins** to automate build, test, and deployment cycles.
- Worked with internal teams and customers directly to synthesize feedback, understand user's issues, and then design improvements and features to solve them.
- Contributed to code reviews and mentored junior engineers on best practices for **React** and **TypeScript** development, ensuring code quality and adherence to architectural patterns.

SKILLS

Frontend – React, TypeScript, HTML5, CSS3, Web Development

Backend – Node.js, NestJS, Python, Java, Spring Boot, REST APIs, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch, ECS), Docker, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle, SQL

Data & AI – Data Analytics, Machine Learning Fundamentals, pandas, NumPy, scikit-learn

Tools & Methodologies – Jira, Confluence, Agile, Scrum, APIs, System Design

PROJECTS

AI Voice Generation Platform Frontend

- Built and iterated on the **React**-based user interface for a large-scale AI voice generation platform, enabling millions of users to create synthetic speech.
- Implemented core features including real-time audio playback, voice model selection, and parameter tuning, using **TypeScript** for type safety and maintainability.
- Integrated with backend APIs to manage user accounts, generation requests, and access control, ensuring a seamless experience for both free and enterprise users.

Customer Integration Service

- Developed a **Python** and **FastAPI** service to facilitate integration of the AI platform with enterprise customer systems, handling API authentication and data transformation.
- Designed and implemented a flexible data mapping layer to support diverse customer data formats, reducing integration time for new clients by an average of **40%**.
- Collaborated with the sales engineering team to demonstrate the integration capabilities to prospective enterprise clients and provide technical support during onboarding.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
