PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed a portfolio of **30+ engine assets** across lease delivery, maintenance, and storage phases, coordinating with customers, manufacturers, and aviation authorities to ensure timely progress and adherence to technical specifications.
- Coordinated lease delivery and redelivery activities for assigned engine assets, including maintenance planning and cost control, ensuring all contractual obligations and technical requirements were met.
- Compiled, reviewed, and archived **engine technical records packages** for over **50 aircraft engines**, ensuring full traceability and compliance with EASA and FAA industry standards.
- Updated **technical databases** detailing engine types, airworthiness directives, service bulletins, and maintenance intervals for a fleet of **over 300 engines**, maintaining accuracy in the company's engine management system.
- Provided technical support to regional offices and other internal departments, assisting with local market activity, customer engagement, and regional technical operations during a **three-month secondment**.
- Assisted in the collation and management of technical records, liaising with aviation authorities and MRO facilities to ensure compliance and accuracy for **global engine fleet** operations.
- Developed a **Python script** to automate the cross-referencing of **maintenance logs** against airworthiness directives, reducing manual review time by approximately **15%**.

SKILLS

Aviation & Engineering – Engine Management, Technical Records Management, Airworthiness Directives, Service Bulletins, Lease Delivery, Maintenance Planning, Aviation Authorities, Aircraft Engines, EASA, FAA

Asset & Project Management – Asset Monitoring, Project Support, Cost Control, Stakeholder Coordination, MRO Facilities, Delivery/Redelivery

Database & Data Management – Technical Databases, Data Collation, Data Archiving, Data Traceability, Compliance

Software & Tools – Microsoft Office, Word, Excel, Python, Jira, Confluence

Business & Operations – Technical Support, Customer Liaison, Regulatory Compliance, Commercial Skills, Regional Operations

PROJECTS

Engine Records Compliance Automation

- Developed a **Python script** to automate the ingestion and validation of digital engine technical records, comparing them against **EASA and FAA** compliance checklists.
- Implemented automated data extraction from scanned PDF records using OCR techniques, successfully processing over **1,500 record pages** per week.
- Designed a reporting module that flagged discrepancies and compliance gaps, reducing the manual review effort for compliance officers by an estimated **20%**.

Maintenance Cost Tracking Dashboard

- Created a **Power BI dashboard** to visualize maintenance costs and intervals for a fleet of **50+ turbofan engines**, integrating data from multiple sources.
- Developed **DAX measures** to track cost per flight hour and forecast future maintenance expenditure based on historical data and engine type.
- Provided interactive visualizations enabling stakeholders to identify cost-saving opportunities and optimize maintenance scheduling.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
