PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assisted senior engineers in diagnosing and resolving **technical issues** impacting **OpenSearch deployments** for enterprise customers.
- Analyzed **system logs** and **performance metrics** to identify root causes of incidents within distributed production environments.
- Responded to **customer support requests**, providing clear guidance and documenting solutions for recurring technical challenges.
- Collaborated with **operations teams** to monitor system stability and performance, contributing to routine maintenance tasks.
- Participated in **Agile ceremonies** and code reviews, ensuring adherence to established development and support processes.
- Developed **Python scripts** to automate data extraction and reporting for internal knowledge base development, improving information retrieval efficiency by approximately **18%**.
- Managed **incident response** for critical Java applications, performing P1/P2 triage and SLA adherence tracking using **Splunk** and **Dynatrace**.

SKILLS

Search & Observability – OpenSearch, Log Analysis, Performance Optimization, Cluster Operations, Monitoring

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting, Docker, Kubernetes

Programming & Scripting – Python, Java, Spring Boot, SQL, REST APIs

Support & Operations – Technical Support, Troubleshooting, Incident Response, SLA Management, Change Management, Customer Service

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, pandas, NumPy

Development Tools – Git, Jenkins, Jira, Confluence

PROJECTS

OpenSearch Cluster Health Monitoring System

- Developed a Python-based monitoring system to track the health and performance of distributed **OpenSearch clusters**, integrating with **AWS CloudWatch** for metric collection.
- Implemented automated alerting for critical cluster events, such as high latency and disk space warnings, reducing manual detection time by an estimated **40%**.
- Created comprehensive runbooks and documentation for common troubleshooting scenarios, enabling faster resolution for junior support staff.

Enterprise Java Application Support & Automation

- Provided production support for enterprise **Java Spring Boot** applications, analyzing logs in **Splunk** to resolve P1/P2 incidents within defined SLAs.
- Automated data validation checks for transaction reconciliation workflows using **Python** and **SQL** against **PostgreSQL** databases, reducing manual verification effort by **~15%**.
- Contributed to feature enhancements by developing and debugging **REST APIs** for inter-service communication within a microservices architecture.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
