HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production incident response for enterprise applications, resolving P1/P2 incidents within defined SLAs and performing root cause analysis using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate ETL processes for daily operational reporting, reducing manual data compilation effort by approximately **15 hours per week**.
- Executed ad-hoc SQL queries and performed data validation for schema changes across **PostgreSQL** and **Oracle** databases, ensuring data integrity for financial operations.
- Collaborated with cross-functional teams across different departments and regions to align operational strategies with organizational objectives, facilitating knowledge sharing.
- Supported local teams to meet business objectives via training, process improvement, and the adoption of appropriate tools and systems, advocating for necessary resources.
- Maintained key performance indicators (KPIs) and metrics to monitor the performance of global programs, identifying trends and measuring progress towards operational goals.
- Containerized Java Spring Boot services using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time for new environments.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting, Cron Jobs

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, Salesforce CRM, Microsoft Excel

Methodologies – Agile, Scrum, Change Management, UAT

PROJECTS

Energy Operations Dashboard Automation

- Developed automated data ingestion pipelines using **Python** and **SQL** to feed a global energy operations dashboard, processing approximately **5,000 data points daily**.
- Designed and implemented interactive visualizations and reporting modules in **Power BI** to track key performance indicators for demand response programs.
- Collaborated with operations teams to gather requirements and refine dashboard functionalities, ensuring alignment with strategic business objectives for portfolio performance.

Automated Transaction Monitoring System

- Built a **Java Spring Boot** application to process and monitor financial transaction flows, identifying and alerting on failed or stuck messages for a financial-services client.
- Integrated **PostgreSQL** database for storing transaction logs and audit trails, enabling detailed reconciliation workflows and historical analysis.
- Wrote comprehensive unit tests using **JUnit**, achieving over **90% code coverage** for critical transaction processing modules.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
