PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed a queue of approximately 50-70 daily IT incidents and service requests, prioritizing and resolving issues related to hardware, software, and access.
- Provided first and second-line support for a range of end-user technologies including **Windows 11**, **macOS**, **mobile devices**, and printers, ensuring swift resolution.
- Provisioned new user accounts, managed access permissions, and administered groups within **Active Directory** and **Microsoft 365** environments.
- Assisted infrastructure teams with hands-on tasks, including hardware setup and basic network troubleshooting, across multiple office locations.
- Documented incident resolutions and created knowledge base articles, contributing to a 15% reduction in recurring ticket volume.
- Monitored IT systems and queues, ensuring adherence to service level agreements and maintaining accurate ticket documentation through to closure.
- Supported the installation and configuration of new IT hardware and software, collaborating with end-users to ensure seamless integration.

SKILLS

Operating Systems – Microsoft Windows, macOS, Linux

Cloud & Collaboration – Microsoft 365, Exchange Online, Active Directory, Azure AD

Hardware Support – Dell Technologies, Laptops, Desktops, Mobile Devices, Printers

Networking – Cisco Networking (Basic Exposure), Connectivity Troubleshooting

Virtualization – VMware (Basic Exposure)

ITSM & Support Tools – Service Desk Ticketing, Jira, Confluence, ITIL Processes

PROJECTS

End-User Support Automation Framework

- Developed Python scripts to automate common user provisioning tasks, reducing manual effort by 40% for the service desk team.
- Created a centralized logging mechanism for incident tracking and reporting using a simple database backend, improving audit trail accuracy.
- Designed and implemented a basic knowledge base interface for common troubleshooting steps, accessible to end-users and support staff.

IT Asset Management & Inventory System

- Built a small-scale inventory management system using Java Spring Boot and PostgreSQL to track IT assets across two HCL office locations.
- Implemented RESTful APIs for querying asset details, status, and assignment, enabling easier reporting for the operations team.
- Integrated with existing change management processes to log hardware and software deployment events.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
