HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed **production support** and monitoring for enterprise applications, resolving P1/P2 incidents and ensuring SLA adherence across **Splunk** and **Dynatrace** platforms.
- Developed **Python scripts** to automate ETL processes and generate scheduled operational reports, reducing manual effort by an estimated **30%**.
- Executed complex **SQL queries** for data validation, ad-hoc analysis, and schema modifications across **PostgreSQL** and **Oracle** databases.
- Contributed to the development of **Java Spring Boot** features, including building and testing **REST APIs** for internal service integrations.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, supporting CI/CD pipelines with **Jenkins** and Git.
- Collaborated with cross-functional teams to support and integrate enterprise business systems, including **ERP modules**, through change management processes.
- Supported the maintenance and continuous improvement of core IT infrastructure services, gaining exposure to proactive monitoring and operational excellence within a large-scale enterprise environment.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Jenkins, Git, Cloud-based monitoring

Programming Languages – Java, Python, SQL, Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Operations – Splunk, Dynatrace, P1/P2 Incident Response, SLA Management, Change Management

Tools & Methodologies – Jira, Confluence, Agile, Scrum, CI/CD

PROJECTS

Enterprise Application Resilience and Automation

- Enhanced the resilience of critical enterprise applications by implementing automated health checks and proactive alerting mechanisms using **Python** and **AWS CloudWatch**.
- Developed a suite of **Python scripts** to automate routine operational tasks, including log analysis and system status reporting, reducing manual intervention by approximately **25%**.
- Refactored existing **Java Spring Boot** microservices to improve performance and error handling, ensuring consistent availability for core business functions.

Data Integration and Operational Dashboard Development

- Designed and implemented data pipelines using **Python** and **SQL** to consolidate information from disparate sources for an operational reporting dashboard.
- Developed interactive visualizations and key performance indicators within **Power BI** to monitor transaction flows and identify operational bottlenecks for business stakeholders.
- Managed database schema updates and performed data validation using **PostgreSQL** to ensure data integrity for downstream reporting and analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
