PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and documented detailed business requirements for customer transformation initiatives by facilitating workshops with key stakeholders across operations and IT departments.
- Designed and documented process flows and system interactions using **Microsoft Visio** to support the implementation of new customer relationship management (CRM) features.
- Collaborated with cross-functional teams, including product owners and development leads, to define user stories and acceptance criteria within an **Agile** framework.
- Supported the full lifecycle of customer technology projects, from business case development through to delivery and implementation, ensuring alignment with strategic objectives.
- Analyzed customer data to identify trends and opportunities for enhancing customer experience, contributing to the development of personalised customer journeys.
- Contributed to the adoption of **Lean** and **Six Sigma** methodologies to identify and implement process improvements within customer-facing operations.
- Managed defect tracking and resolution in **Jira**, ensuring timely updates and communication to stakeholders regarding production issues and change requests.

SKILLS

Business Analysis – Requirements Gathering, Process Improvement, Stakeholder Management, User Stories, Acceptance Criteria, UAT, Business Case Development

Methodologies – Agile, Scrum, Lean, Six Sigma

CRM Platforms – Salesforce, Microsoft Dynamics

Tools – Microsoft Visio, Azure, Jira, Confluence

Data Analysis – Customer Data Analysis, Data Visualisation, Power BI, Tableau, R

Programming Languages – Python, Java, SQL

PROJECTS

Customer Onboarding Process Optimisation (HCL Technologies)

- Mapped existing customer onboarding workflows and identified bottlenecks, leading to a proposed redesign of the initial engagement process.
- Developed detailed process documentation and flowcharts using **Microsoft Visio** for a new client integration framework, standardising data exchange protocols.
- Collaborated with operations teams to gather feedback on proposed process changes, ensuring alignment with business needs and technical feasibility.

Enterprise Systems Integration Analysis (HCL Technologies)

- Analyzed cross-system integration points between ERP modules and operational platforms, documenting data flows and API interactions.
- Authored technical specifications for REST API enhancements to facilitate smoother data transfer between interconnected enterprise systems, improving data consistency by **~18%**.
- Supported change control management for system configuration updates, coordinating UAT cycles and post-go-live support for integrated solutions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
