HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and enhanced **Azure** and hybrid cloud network services, ensuring high availability for critical platforms.
- Implemented and supported **Azure Virtual Network** configurations including hub-and-spoke architectures, subnets, peering, and NAT Gateway.
- Administered network security controls such as **Network Security Groups** and **Azure Firewall** to enforce network segmentation and controlled traffic.
- Operated hybrid connectivity solutions including **ExpressRoute** and **VPN Gateways**, integrating with on-premises routing.
- Monitored network health, flow, latency, and security signals using **Azure Monitor** and **Network Watcher**.
- Developed and deployed network infrastructure changes using **Terraform**, adhering to peer review and controlled deployment practices.
- Resolved complex connectivity and performance issues across DNS, routing, firewalls, and load balancing in hybrid environments.

SKILLS

Cloud Platforms – Microsoft Azure, AWS

Azure Networking – Virtual Network, Hub-and-Spoke, Virtual WAN, Peering, User-Defined Routes, NAT Gateway, Private Link, Service Endpoints, ExpressRoute, VPN Gateway, BGP, Azure Monitor, Network Watcher

Network Security – Network Security Groups, Azure Firewall, Web Application Firewall, DDoS Protection, Network Segmentation

Infrastructure as Code – Terraform, PowerShell, Azure CLI, Bash, Python

Load Balancing & Application Delivery – Azure Load Balancer, Application Gateway, Front Door

Protocols & Concepts – TCP/IP, IPv4, DNS, DHCP, NAT, Routing, VPNs, Proxies, TLS, Network Security Principles

PROJECTS

Azure Hybrid Network Architecture for Enterprise Services

- Designed and implemented a scalable **Azure** hub-and-spoke network topology to connect on-premises data centers with cloud-based applications.
- Configured **ExpressRoute** circuits and **VPN Gateways** to establish secure and reliable hybrid connectivity, achieving sub-50ms latency for critical data transfers.
- Deployed and managed network security groups and **Azure Firewall** policies to enforce granular access controls and isolate production environments.

Automated Azure Network Deployment with Terraform

- Developed reusable **Terraform** modules for provisioning core Azure networking resources, including virtual networks, subnets, and load balancers.
- Integrated Terraform deployments into a **CI/CD** pipeline using Jenkins, enabling automated testing and controlled rollouts of network configuration changes.
- Authored operational runbooks and documentation for the automated network deployment process, reducing manual intervention by approximately 65%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
