# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Assisted with monitoring network performance and availability using **Splunk** and **CloudWatch**, contributing to timely identification of 15+ network degradation events per month.
- Troubleshot basic network connectivity and access issues across internal systems, resolving an average of 5-7 tickets daily related to IP addressing, DNS, and DHCP.
- Supported the configuration and maintenance of network devices, including routers and switches, by documenting changes and verifying operational status post-update.
- Investigated and resolved basic network incidents, escalating complex issues to senior engineers with detailed logs and initial diagnostic findings.
- Maintained network documentation, diagrams, and configuration records, ensuring accuracy for a network supporting over 500 internal users.
- Assisted with network security and access control activities, including user account provisioning and deprovisioning following established procedures.
- Followed IT security, change management, and network support procedures to ensure compliance and operational stability within the production environment.

## SKILLS

**Networking Fundamentals** – TCP/IP, OSI model, IP addressing, subnetting, DNS, DHCP, LAN, WAN, Wi-Fi, wireless networking

**Network Support Tools** – Ticketing systems, Network monitoring tools, Splunk, CloudWatch

**Network Devices** – Routers, Switches, Wireless Access Points

**Security Fundamentals** – Firewalls, Network security, Access control

**Troubleshooting** – Network troubleshooting, Incident resolution, Log analysis

**Operating Systems** – Linux, Shell scripting

**Programming & Scripting** – Python, Java, SQL

## PROJECTS

**Network Monitoring System Enhancement (HCL Technologies)**

- Enhanced the existing network monitoring system by integrating **Splunk** dashboards to provide real-time visibility into network traffic patterns and device health for enterprise customers.
- Developed **Python** scripts to automate log aggregation and initial alert filtering, reducing manual analysis time for network incidents by approximately 30%.
- Collaborated with operations teams to refine alerting thresholds based on observed network behavior, decreasing false positives by ~15%.

**IP Address Management Automation (HCL Technologies)**

- Automated IP address allocation and tracking using **Python** scripts and **PostgreSQL**, streamlining the process for new device onboarding and reducing manual errors.
- Implemented validation checks within the script to ensure adherence to subnetting rules and prevent IP conflicts across different network segments.
- Generated regular reports on IP address utilization and lease status, aiding in network capacity planning for a team of 8 engineers.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
