PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained automated tests in **Java Spring Boot** for new product features, ensuring code quality and stability for enterprise applications.
- Wrote data-driven back-end tests using **SQL queries** against PostgreSQL and MySQL databases to validate API responses and data integrity.
- Collaborated with Quality Assurance Engineers and software engineers in Agile sprints to design and implement automated tests in **Java**.
- Assisted with deploying and configuring test environments using **AWS** services (EC2, S3) and managed infrastructure through Azure DevOps pipelines.
- Gained in-depth knowledge of the registry platform's modules and their interdependencies through feature analysis and design document review.
- Learned to configure and maintain automated tests within a **TeamCity** continuous integration environment, ensuring reliable test execution.
- Analyzed requirement documents to derive comprehensive test cases, covering functional and non-functional aspects of the registry platform.

SKILLS

Programming Languages – Java, C#, Python, SQL, R, HTML, CSS

Frameworks & Libraries – Spring Boot, Spring, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI, NestJS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure DevOps

Databases – PostgreSQL, MySQL, Oracle, MS-SQL

Testing & Automation – Test Automation, Automated Tests, API Testing, Backend Testing, Unit Testing, JUnit, TestNG, C#

CI/CD & Tools – Jenkins, Git, Jira, Confluence, TeamCity, Docker

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, ETL

PROJECTS

Automated Testing Framework Enhancement

- Enhanced an existing automation framework by developing reusable Java components and utility classes, improving test script maintainability by **30%**.
- Implemented data-driven testing strategies using parameterized SQL queries to execute tests against diverse datasets, increasing test coverage for API endpoints.
- Integrated new test suites into the Jenkins CI/CD pipeline, enabling automated execution and reporting for regression cycles.

API Backend Service Validation

- Designed and executed a suite of backend tests for RESTful APIs using **Java** and **Spring Boot**, focusing on validating JSON request/response payloads.
- Wrote SQL scripts to seed and validate data in a **PostgreSQL** database, ensuring transactional integrity and accurate state changes post-API calls.
- Contributed to the development of test cases derived from design documents, ensuring alignment with feature specifications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
