HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained robust **Python** data pipelines for ETL processes, transforming raw data into actionable insights for business intelligence.
- Authored **SQL** scripts for complex data extraction, transformation, and validation across multiple relational databases, supporting ad-hoc reporting needs.
- Contributed to the development of **Java Spring Boot** REST APIs, focusing on feature enhancements and bug fixes within existing enterprise services.
- Assisted in building and testing **data pipelines**, ensuring data integrity and efficient processing for analytical purposes.
- Wrote **SQL** and **Python** scripts to facilitate data extraction, transformation, and validation, directly supporting daily data operations.
- Supported routine **platform maintenance** and data quality checks, contributing to the overall health and reliability of data systems.
- Containerized **Java Spring Boot** applications using **Docker** and deployed them to **AWS EC2** instances, streamlining deployment and improving environment consistency.

SKILLS

Languages – Python, SQL, Java

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins, Linux

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace

Data Engineering Concepts – Data Warehousing, ETL/ELT, Data Pipelines, Data Quality

PROJECTS

Automated Financial Data Ingestion and Transformation

- Engineered a **Python**-based ETL pipeline to ingest and process financial transaction data from disparate sources, automating a previously manual reporting process.
- Implemented data transformation logic using **pandas** to clean, enrich, and structure the data, preparing it for downstream analytical dashboards.
- Developed **SQL** scripts for data validation and loading into a central data warehouse, ensuring accuracy for over 5,000 daily transaction records.

API Development for Enterprise Data Services

- Designed and built a **FastAPI** microservice in **Python** to expose processed data to internal business intelligence tools, improving data accessibility.
- Integrated the service with a **PostgreSQL** database, handling CRUD operations and ensuring efficient data retrieval for reporting applications.
- Wrote comprehensive unit tests using **pytest**, achieving over 85% code coverage for the API endpoints and supporting robust change management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
