PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **React.js** and **Next.js** components for user-facing features, implementing state management with hooks and context for improved application responsiveness.
- Collaborated with senior engineers to design and implement **TypeScript**-based frontend solutions, focusing on code reusability and adherence to architectural patterns.
- Wrote clean, well-tested code using **React Testing Library** and **Jest**, achieving over 85% unit test coverage for critical user interface modules.
- Fixed bugs and enhanced existing features across multiple web applications, reducing reported client-side issues by approximately 18% over a six-month period.
- Participated actively in daily stand-ups, sprint planning, and code reviews, providing constructive feedback to peers on code quality and best practices.
- Assisted in debugging production issues for enterprise client applications, analyzing frontend logs and network requests to identify root causes.
- Containerized frontend applications using **Docker** and configured build pipelines in **Jenkins** for streamlined deployment to cloud environments.

SKILLS

Frontend Frameworks – React.js, Next.js, TypeScript, JavaScript, HTML, CSS

Backend/API – REST APIs, Node.js, GraphQL

Languages – Java, Python, SQL

DevOps/Cloud – Docker, Kubernetes, AWS, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Customer Onboarding Portal (HCL Technologies)

- Developed a **React.js**-based customer onboarding portal to streamline new client integration, enabling self-service configuration and reducing manual setup time by 30%.
- Implemented **REST API** integrations to fetch and display dynamic user data, ensuring real-time updates for account management and feature provisioning.
- Designed and built reusable UI components using **TypeScript** and modern CSS practices, contributing to a consistent user experience across the platform.

E-commerce Feature Enhancement (HCL Technologies)

- Enhanced existing **Next.js** e-commerce platform features, focusing on improving product search performance and checkout flow usability for enterprise customers.
- Integrated new **JavaScript** functionality for personalized recommendations, contributing to a ~15% uplift in user engagement metrics for targeted campaigns.
- Collaborated with backend teams to define API contracts for new frontend features, ensuring seamless data exchange and efficient development cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
