HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices for backend APIs, implementing robust error handling and state management across distributed systems.
- Built modern, responsive frontend applications using **React.js** and associated libraries, focusing on component-based architecture and efficient state management.
- Engineered **microservices-based architectures** that enhance scalability and maintainability, ensuring system resilience through careful design patterns.
- Collaborated with **product managers**, designers, and stakeholders to translate complex software requirements into actionable development tasks within an Agile framework.
- Developed and maintained **RESTful APIs**, ensuring seamless data exchange between frontend and backend services using JSON and HTTP protocols.
- Contributed to architectural discussions and technical decision-making processes, evaluating and adopting emerging technologies to improve team effectiveness.
- Containerised backend services using **Docker** and deployed them to a **Kubernetes** cluster, managing configurations and resource allocation.

SKILLS

Languages – Java, Python, JavaScript, SQL, HTML, CSS

Frameworks/Libraries – Spring Boot, React.js, Hibernate, Spring MVC, Node.js, Express.js

Databases – PostgreSQL, MySQL, Oracle, MongoDB

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Methodologies – Agile, Scrum, Microservices Architecture, RESTful APIs, Event-Driven Design

Tools – Jira, Confluence, Splunk, Dynatrace, Postman, VS Code, GitHub Copilot

PROJECTS

Enterprise Java Microservice Suite

- Developed a suite of **Java Spring Boot** microservices to manage core business logic, exposing **RESTful APIs** for client applications.
- Implemented persistence layers using **Hibernate** and **PostgreSQL**, ensuring data integrity and efficient querying for transactional data.
- Containerised each microservice with **Docker**, streamlining deployment and enabling consistent execution across development and production environments.

Customer-Facing React Dashboard

- Built an interactive **React.js** dashboard to visualize key operational metrics for enterprise customers, integrating with backend APIs.
- Designed and implemented responsive UI components adhering to modern web standards, ensuring usability across various devices and screen sizes.
- Collaborated with a product owner to gather requirements and iterated on features based on stakeholder feedback, enhancing user experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
