HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed **Go** controllers and **Custom Resource Definitions (CRDs)** for managing Kubernetes-native services, automating provisioning and configuration workflows.
- Wrote and maintained **Go** code for platform capabilities, implementing unit, integration, and cluster-based tests to ensure reliability.
- Integrated with core **Kubernetes** components including networking, storage, and security policies to enhance platform functionality.
- Contributed to **CI/CD pipelines** for building, testing, and releasing Kubernetes platform software using **GitOps** principles.
- Implemented secure defaults, including **RBAC** and secrets management, to enforce least-privilege access and workload isolation within the cluster.
- Built observable and supportable software by instrumenting with **logs**, **metrics**, and **health checks**, aiding in troubleshooting complex controller behaviors.
- Collaborated with **SRE** and application teams to troubleshoot **Kubernetes** workloads and automation issues, contributing to shared knowledge bases and runbooks.

SKILLS

Languages – Go, Python, Java, SQL

Cloud Native – Kubernetes, Docker, Helm, Terraform, Argo CD, Flux, GitOps, EKS

Programming & Scripting – Python scripting, Shell scripting

Databases – PostgreSQL, MySQL, Oracle

Observability & CI/CD – Splunk, Dynatrace, Jenkins, Git, CloudWatch

Platform Engineering – CRDs, Controllers, RBAC, Admission Controllers, Network Policies, Secrets Management

PROJECTS

Kubernetes Operator for Application Deployment

- Developed a **Kubernetes Operator** in **Go** to automate the deployment and management of multi-tier applications across different environments.
- Defined **Custom Resource Definitions (CRDs)** to specify application configurations, dependencies, and scaling requirements, abstracting complexity for developers.
- Implemented reconciliation loops within the operator to ensure the desired state of applications matched the cluster state, handling rollbacks and upgrades automatically.

Platform Automation with Terraform and Helm

- Automated the provisioning of **Kubernetes** clusters on **AWS** using **Terraform**, managing infrastructure as code for consistent deployments.
- Created and maintained **Helm charts** for packaging and deploying common application components and services onto the managed Kubernetes clusters.
- Integrated **GitOps** workflows using **Argo CD** to manage application deployments and infrastructure changes, ensuring automated, auditable, and repeatable processes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
