PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Established and maintained **cloud financial governance** processes and standards, ensuring accurate cost allocation to products and business units across **Azure, AWS, and GCP**.
- Identified, tracked, and managed cloud cost optimization opportunities, working with platform teams to implement **rightsizing and storage optimization** initiatives.
- Developed and maintained executive and operational dashboards for cloud account owners and business unit leaders, reporting on cloud spend, consumption trends, and **savings realization**.
- Mined and analyzed cloud billing and consumption data from multiple providers to perform forensic analysis of spend anomalies and identify cost drivers before they materially impacted budgets.
- Managed cloud commitment-based discount programs, including **Azure Reserved Instances & Savings Plans**, performing monthly utilization reviews and renewal activities.
- Provided financial and consumption input to cloud vendor negotiations and contract renewals, supporting Procurement with commercial analysis of pricing models and discount structures.
- Implemented **Python scripting** for automation of financial data extraction and transformation, supporting the generation of over **15 automated financial reports** per week.

SKILLS

Cloud Platforms – AWS, Azure, GCP

FinOps & Cost Management – Cloud Financial Governance, Cost Management, Optimization, Chargeback, Showback, Tagging Standards, Financial Data Analytics, Reservations, Savings Plans, Vendor Management, Marketplace

Cloud Technologies – EC2, S3, Lambda, CloudWatch, Reserved Instances, Savings Plans

Programming & Scripting – Python, SQL, Java, Spring Boot

Data Analysis & BI – Power BI, DAX, Power Query, Data Modelling, Tableau, Splunk, Dynatrace

DevOps & Tools – Docker, Jenkins, Git, Jira, Confluence, Linux

PROJECTS

Cloud Cost Analysis and Reporting Platform

- Developed a **Python-based data pipeline** to ingest and process cloud billing data from AWS and Azure, transforming raw logs into a structured format for analysis.
- Built interactive **Power BI dashboards** to visualize cloud expenditure, consumption trends, and cost allocation across different business units, presenting findings to senior finance stakeholders.
- Implemented automated alerting for unexpected cost increases and identified potential optimization opportunities, contributing to a **12% reduction** in monthly cloud spend for the development team.

Enterprise Financial Operations Dashboard Enhancement

- Enhanced an existing **Java Spring Boot** application by integrating new modules for transaction monitoring and operational alerting for a financial services client.
- Wrote complex **SQL queries** against PostgreSQL and Oracle databases to validate transaction data, reconcile workflows, and support audit trail requirements.
- Collaborated with cross-functional operations teams to gather requirements for new dashboard features, improving visibility into payment processing statuses for an **8-person team**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
