PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained Java Spring Boot microservices for internal business systems, handling approximately 1,500 requests per second during peak hours.
- Implemented **JPA** entities and performed **Hibernate** query optimizations to improve data retrieval performance for enterprise reporting modules, reducing query times by an average of 22%.
- Designed and implemented RESTful APIs using **Java Spring Boot** to facilitate cross-system integrations between ERP components and operational platforms, supporting seamless data exchange.
- Collaborated with cross-functional teams in an **Agile/Scrum** environment, participating in sprint planning, daily stand-ups, and code reviews to ensure timely delivery of features.
- Managed **change-control processes** for system configuration updates and coordinated User Acceptance Testing (UAT) for critical business system enhancements.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, ensuring consistent environments across development and production.
- Monitored production environments using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and managing SLAs for enterprise applications.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, JPA, Hibernate, JUnit, Maven

Data Engineering & Databases – SQL, PostgreSQL, MySQL, Oracle, Python, Pandas, NumPy, ETL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting

BI & Analytics – Power BI, Tableau, DAX, Power Query, R, RStudio, Scikit-learn

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Change Management

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored a legacy Java application into a **Spring Boot** microservice architecture, improving system modularity and maintainability.
- Integrated the new service with existing **PostgreSQL** databases, ensuring data integrity and implementing **JPA** for object-relational mapping.
- Wrote comprehensive **JUnit** tests and performed code reviews, contributing to a 15% reduction in post-deployment defects.

Automated Reporting Pipeline (HCL Technologies)

- Developed a **Python** script to automate the generation of daily operational reports from multiple databases (**MySQL**, **Oracle**), processing approximately 50,000 records per run.
- Implemented data validation checks within the pipeline to ensure accuracy and consistency of generated reports.
- Scheduled the Python script using **cron jobs** on a Linux server, delivering reports via email to operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
