HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported **enterprise engineering and manufacturing projects** by assisting with **project planning, tracking, and reporting**, contributing to on-time delivery for key initiatives.
- Collected and analyzed **manufacturing and engineering data** to identify trends and support data-driven decision-making within project teams.
- Participated in **process improvement and problem-solving initiatives**, contributing to root cause analysis and the implementation of corrective actions.
- Prepared and maintained detailed **engineering documentation and reports**, ensuring accuracy and adherence to quality standards for project deliverables.
- Collaborated with **cross-functional teams** including operations, manufacturing, and quality assurance to align project efforts and achieve shared goals.
- Contributed ideas for **continuous improvement** within project execution and operational processes, enhancing overall team efficiency.
- Containerized **Java Spring Boot applications** using **Docker** and deployed to **AWS EC2** instances, streamlining development and deployment workflows.

SKILLS

Engineering Project Management – Project Planning, Project Tracking, Reporting, Process Improvement, Problem-Solving, Root Cause Analysis, Documentation, Continuous Improvement

Data Analysis & Reporting – Data Collection, Data Analysis, Manufacturing Data, Engineering Data, Microsoft Excel, Microsoft Office

Software Development – Java, Spring Boot, REST APIs, Docker, AWS (EC2, S3, Lambda, CloudWatch), Python Scripting

Database & Scripting – SQL (PostgreSQL, MySQL, Oracle), Python, Shell Scripting

Collaboration & Communication – Cross-functional Teams, Teamwork, Communication, Stakeholder Collaboration

Quality & Compliance – Quality Standards, Safety Standards, Company Standards

PROJECTS

Manufacturing Process Optimization Platform

- Developed a **Python-based data pipeline** to collect and consolidate manufacturing output data from disparate sources, increasing data accessibility by 40%.
- Engineered **SQL scripts** to automate data validation and aggregation for production reporting, reducing manual effort by 15 hours per week.
- Designed and implemented **dashboards in Power BI** to visualize key performance indicators for manufacturing lines, aiding operational decision-making.

Automated Engineering Data Reporting Tool

- Built a **Java Spring Boot application** to ingest engineering test data and expose it via **REST APIs** for consumption by downstream analysis tools.
- Integrated the application with **PostgreSQL** for data persistence and implemented automated testing using **JUnit**, ensuring API reliability.
- Containerized the service using **Docker** for consistent deployment across development and staging environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
