PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed monthly and quarterly accounting functions for a portfolio of **private equity funds**, ensuring adherence to contractual service delivery agreements.
- Executed control frameworks by completing detailed checklists and procedure documentation, partnering with Business Control functions and successfully navigating **internal audits**.
- Developed and implemented solutions to eliminate manual processes within fund administration, reducing operational risk through a **controls mindset** and data governance.
- Facilitated timely escalation of successes and issues to Senior Management, maintaining clear communication channels for critical operational updates.
- Gathered requirements from client stakeholders to understand contractual obligations and service delivery agreements, translating them into actionable administration processes.
- Supported LP/investor capital calls and distributions, preparing accurate **investor financial reports** and capital statements.
- Analyzed and governed data integrity within private market fund structures, ensuring the upkeep and accuracy of critical financial data using **data literate** approaches.

SKILLS

Fund Administration – Private Equity Fund Administration, Closed-Ended Funds, Semi-Closed-Ended Funds, Capital Calls, Distributions, Investor Relations, Financial Reporting, Capital Events

Financial Operations – Accounting, Audit Functions, Reporting Functions, Control Frameworks, Process Improvement, Risk Reduction, Data Governance

Client & Stakeholder Management – Client Services, Stakeholder Relationships, Service Delivery Agreements, Requirements Gathering, Investor Queries, Communication Skills

Tools & Technologies – AI Tools, Alteryx Models, FIS Investran, Arcesium

Industry Knowledge – Private Markets, Alternatives Funds Industry, Banking Services

PROJECTS

Private Equity Fund Operations Enhancement

- Streamlined monthly and quarterly accounting workflows for a portfolio of **private equity funds** by implementing standardized procedural documentation.
- Enhanced investor reporting accuracy by developing new templates for **capital statements** and financial reports, reducing query rates by approximately 15%.
- Collaborated with operations teams to identify and integrate process improvements, contributing to the reduction of manual intervention in **fund administration** tasks.

Data Integrity Framework for Investor Portfolios

- Designed and implemented a data governance framework to ensure the accuracy and integrity of investor data within a simulated **private markets fund** structure.
- Developed Python scripts to automate data validation checks for capital call and distribution records, catching approximately **20%** of potential errors before final reporting.
- Applied a **controls mindset** to data upkeep, ensuring compliance with internal audit requirements for financial reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
