HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for inter-service communication and handling approximately **1,500 requests per minute**.
- Designed and implemented data persistence layers using **Hibernate** and **JPA**, managing complex object-relational mappings for enterprise-scale applications.
- Wrote comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over **90% code coverage** for critical application modules.
- Collaborated with cross-functional teams to define technical requirements for new features, participating in daily **Scrum ceremonies** and providing technical estimations for sprint planning.
- Managed production incidents for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace**, and resolving P1/P2 issues within defined SLAs.
- Contributed to the containerization of applications using **Docker**, building images and managing container lifecycles for deployment on **AWS EC2** instances.
- Automated data extraction and transformation tasks using **Python scripting**, developing ETL pipelines that processed over **50 GB of data daily** for reporting purposes.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, JUnit, Mockito, Maven

Data Engineering & Scripting – Python, Pandas, NumPy, SQL, PostgreSQL, MySQL, Oracle, ETL, Shell Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Observability & Support – Splunk, Dynatrace, Jira, Confluence, Incident Management, SLA Management

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, RStudio

Enterprise Systems – ERP Integration Support, Change Management, Business Systems

PROJECTS

Enterprise Java Application Modernisation (HCL Technologies)

- Refactored legacy Java components into a modern **Spring Boot** microservices architecture, improving system performance by an estimated **20%**.
- Implemented a new data access layer using **Hibernate**, enhancing data retrieval efficiency and simplifying database interactions for core business logic.
- Developed RESTful APIs to expose services to internal and external clients, ensuring seamless integration with existing enterprise systems.

Python-based Automated Reporting Framework (HCL Technologies)

- Engineered a Python-based framework to automate the generation of daily and weekly operational reports, reducing manual effort by approximately **80%**.
- Developed **ETL pipelines** using Pandas to extract, transform, and load data from multiple relational databases (PostgreSQL, Oracle) into a central reporting repository.
- Integrated the framework with Jenkins for scheduled execution and automated delivery of reports via email, supporting business analysts and operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
