HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engineered and deployed **Java Spring Boot** microservices for core business logic, ensuring robust API contracts and efficient data exchange with upstream and downstream systems.
- Developed and maintained **Hibernate** entities and JPQL queries for complex data persistence and retrieval operations, optimizing database interactions for critical application modules.
- Implemented RESTful APIs using **Spring Boot**, integrating with various internal and external services and adhering to established design patterns for maintainability.
- Collaborated with investment analytics teams to translate complex business requirements into technical specifications for new feature development, contributing to sprint planning and estimation.
- Participated in code reviews for peer developers, ensuring adherence to coding standards, best practices, and overall system quality, improving code maintainability by an estimated **15%**.
- Contributed to the design and implementation of data ingestion pipelines, processing approximately **50,000** financial records daily for analytics and reporting purposes.
- Containerized backend services using **Docker** and managed deployments to **AWS EC2** instances, ensuring consistent environments across development, staging, and production.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, Spring, pandas, NumPy, scikit-learn, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Investment Data Aggregation Service (HCL Technologies)

- Developed a **Java Spring Boot** application to aggregate financial data from multiple sources, including REST APIs and direct database connections to **PostgreSQL**.
- Implemented a robust data validation layer using **Hibernate** and custom business logic, reducing data quality issues by approximately **20%** before ingestion into downstream systems.
- Designed and built RESTful endpoints to serve aggregated data to internal dashboards and client-facing applications, handling an average of **1,500** requests per minute.

Financial Reporting Dashboard Enhancement (MSc Applied Project)

- Enhanced an existing financial reporting system by developing interactive dashboards using **Power BI**, integrating data from **SQL** sources and flat files.
- Created complex **DAX** measures and optimized data models within **Power BI** to support analytical queries, improving report loading times by an estimated **30%**.
- Collaborated with business stakeholders to gather requirements and present dashboard prototypes, ensuring alignment with analytical needs and strategic objectives.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
